

**CANDIDATE FOR DIRECTOR  
YUCAIPA VALLEY WATER DISTRICT, DIVISION 2**

**NAME: BRUCE J. GRANLUND**

**AGE: 58**

**OCCUPATION: Incumbent**

I have proudly served as your representative on this board since 1998. During that time I served as Vice President for 2 years and am currently serving my second term as President of the Board.

My first priority when I came to the Board was the implementation of a "Recycled Water System". This system is currently in use, preserving our precious supply of potable water. This system saved the City of Yucaipa approximately \$40,000 in the first year it was used for irrigating city parks. We are on the verge of the areas first "dual plumbed" community where recycled water will be used for outside irrigation, off-setting approximately 60% - 70% of the residents potable water demand.

The District is currently constructing a ***state of the art*** drinking water treatment plant, expanding and renovating the Henry N. Wochholz recycled water treatment plant and designing a new recycled water treatment plant for the Oak Valley area.

As your representative I will continue to work diligently to see that these projects are completed in line with my fiscally conservative values.

***"The water we drink tomorrow depends on the decisions we make today"***

I would appreciate your vote on November 7, 2006
